Rites Held For Former Resident

Funeral services for Rufus A. Richards, 57, retired chemist at Columbia Steel, were held in the Stone and Myers chapel Tuesday afternoon following his death in Loma Linda April 28.

The deceased was born in South Wales, Great Britain, July 24, 1893, and came to the United States in 1900.

Coming to Torrance in 1933, he was employed at Columbia Steel until his retirement in 1947. Since that time he has made his home in Yucalpa.

Surviving are his widow, Esther, and a son, David, who reside in Yucalpa; and a daughter, Olwyn Ferguson of Torrance.

Services were conducted by Rev. Ray Jarman of the South Gate Christian chapel. Interment followed in the Mt. View Cemetery, Pasadena.

Kiwanis Club Adds Member

Torrance Kiwanians added a new name to their roster recently when Jimmy Giacalone, manager of the A-1 Photo Service, was admitted to membership in the organization.

The installation of the new member adds to the already record enrollment of that organization.

Hank Uhlright and Ed Brown were the installing officers.

LARGE PERCH TYPE
A species of perch found in the Nile river grows to weigh as much as 600 pounds.

"Packaged-in-Glass" hot water—all you need—sparkling clean as the source itself.

NO RUSTING! NO CORRODING!

The Permaglas Water Heater CANNOT rust or corrode. Why? Because its tank is glass-fused-to-steel—sanitary as a clean drinking glass!

Fully automatic, it will give you years of truly carefree hot-water convenience. Be sure to see it today!

YOUNG JOURNALISTS... Manning the copy "rim" of the new Fern Avenue School News are Lee Hines, Douglas Bergen, Nellie Mosley, Pat Bregar, Jeanette Thompson, Dolores Hudson and Linda Thistle. Students are shown preparing copy for the Fern News, first issue of which was published Monday afternoon.

Young Publishers Print First Issue of Paper

Clacking typewriters, copyboys, hurried conferences and other trademarks of a newspaper city room came to the Fern Avenue Elementary School recently.

And right in the middle of it were the sixth grade classes of Teachers William Lewis and Lloyd Jones.

By late Monday afternoon, the results of such activity were in the hands of several hundred young Torrance residents.

It was a newspaper—written, edited and published by the students at the Fern Avenue school.

Under the co-editorship of Eddie Hutchinson and Don Butterfield, the three-page mimeographed newspaper was chock full of items of news, sports, society and features written by the young staff of Torrance's newest paper.

The paper sells for two cents, the proceeds going to the welfare section of the Parent-Teachers Association.

Students do all the writing and art work. Instructors Lewis and Jones do the final typing job, but the young editors make up the pages and do the final copyreading.

Society Editors Dolores Hudson and Catherine Derikson pick up the social notes from halls and classes of the school, while Sports Editors Lee Hines and David Rhone keep the busy student body informed of the athletic achievements of their fellow-students.

Reporters from the sixth grade classes "cover" the news beats of the school with the exception of the activities of the seventh grade classes. The seventh grade has reporters, who are not on the staff of the paper but who do report for that class.

A business staff looks after the circulation and will begin selling ads for next week's issue. No advertising appears in the first issue.

Just like any other newspaper which does its own publishing, the Fern News, as it is named, has a mechanical department.

Two young printers (mimeograph-specialists) do the printing right at school.

Gracing one side of the city room is a sealed-down copy "rim," a horseshoe desk where copy is read and prepared for publication.

Everything is set up to resemble a thriving community newspaper—which it is. It is the local newspaper for the community of Fern Avenue.

Doctors Told of Defense Against Atomic Warfare

"Atomic explosions and problems of Civilian Defense" was the topic of a talk given last week by Justine Stine, M.D., before nearly 40 doctors of the Torrance Memorial Hospital Staff.

Doctor Stine is Chairman of the California Medical Association on Civilian Defense, and the occasion was the monthly hospital medical staff dinner.

He said that much of the information about atomic bombs reaching the public is based on hysteria and outlined definite steps that may be taken to reduce deaths and injuries from such explosions.

A membership drive in the American Academy of General Practice was announced by Dr. Howard A. Wood.

Dr. Frederic Ewens of Manhattan Beach reported on the Convention of the California

Medical Association held recently in San Diego.

Preceding the dinner meeting the Executive Committee met. Dr. C. T. LaFrance of Redondo Beach is chairman of the committee and local physicians attending this board meeting were: Clifford E. Eastley, Rodney A. Stetson, and Howard A. Wood.

Hard of Hearing Now Hear Clock Tick

A new device has been developed to give hope for the hard of hearing. Through the adoption of a new miniature electronic tube, science now brings restored hearing to the deafened.

No more cumbersome batteries or battery cords needed. No button in the ear. This new device weighs only a few ounces yet so powerful the hard of hearing may now hear whispers.

It is suggested, if interested for full free information, Better Hearing Institute, Dept. H, Wilshire Medical Exchange, 651 S. West Lake Ave., L.A. 5, Calif.
